

mekoprint

mekoprint chemigraphics

CHEMIGRAPHICS

produces etched into shape, mechanically finished sheet metal components as well as metal nameplates, scales and rulers.

PRODUCTS

Etching into shape:

- EMC shielding
- Springs, seals and connectors etc.
- Coil and CNC punching

Metal nameplates:

- Printed and anodized aluminium nameplates
- Etched steel and brass nameplates
- Scales and rulers

SKILLS

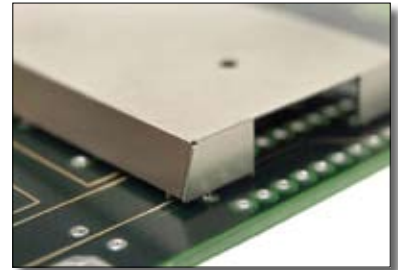

- Design assistance and prototype service
- Mechanical finishing
- Internal tool production
- Silk screen printing on metal
- Steel and brass etching

TECHNOLOGIES

- Europe's newest production facilities in the field of lighting and etching
- All equipment for the management of the mechanical processes
- Optimum geometric freedom
- Unrivalled tolerances
- Quality-controlled production

FACTS

Chemigraphics has 6,000 m² of ultramodern administration and production facilities - the perfect framework for optimum solutions for professional customers in all industries, including the communications, engineering, automobile, electronics and medico sectors all over Europe.

mekoprint mechanics

MECHANICS

delivers cabinets, chassis parts, front panels, instrument panels and front panels, also carrying out advanced CNC milling, surface treatment and silk screen printing.

PRODUCTS

- Cabinets, chassis parts, front panels
- Mechanical processing - milling, punching, folding, laser cutting, and welding
- All forms of surface treatment (anodisation, SurTec 650 and powder coating)

SKILLS

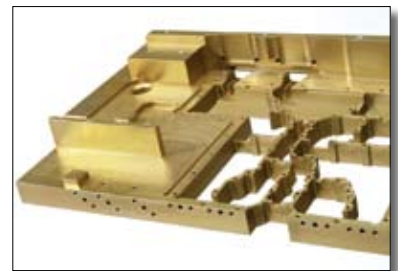

- Innovative cooperation on the development of mechanical metalwork
- Graphic finishing
- Unique knowledge of solution models, materials, and production methods

TECHNOLOGIES

- All processes in the field of machining and sheet metal processing under one roof
- Production facilities for all solutions from simple constructions to the most complex combination solutions

FACTS

Mechanics is one of Europe's most modern production operations with over 15,000 m² at its disposal. Good workmanship and a high degree of automation form the background for solutions of the highest quality - mechanical and cosmetic - for professional customers in all industries in and outside Europe.

mekoprint graphics

GRAPHICS

produces plastic signs, overlays and transfers, insulation foils and overlays for IMD products in silk screen printing for all forms of plastic materials and foils.

PRODUCTS

- Transfers, labels, plastic signs and overlays of all sizes
- Top-quality digital printing
- Acrylic fronts
- Insulation foils
- Overlays for In Mould Decoration

SKILLS

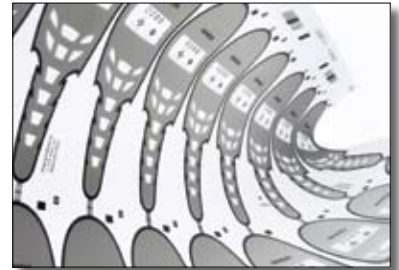

- Innovative form of cooperation based on customer wishes and requirements
- Unique knowledge of plastics design, materials and tool production
- Optimum flexibility
- Rapid prototype production
- All series sizes
- Short delivery time

TECHNOLOGIES

- Ultramodern graphics department: design, film etc.
- In-house colour laboratory
- Print works: silk screen and digital printing machines for all formats
- Finishing: Various techniques for assembly with glue, automatic punching and laser cutting
- Assembly and control section

FACTS

Graphics has 9,000 m² of modern service and production facilities, which creates optimum solutions for global customers in industries including automobiles, communications, medico, electronics, and white goods.

mekoprint electronics

ELECTRONICS

develops and produces complex and high-tech solutions with extremely high requirements as regards design, quality and functionality.

PRODUCTS

Flexfilm - roll to roll:

- RF antennas for wireless communication
- RFID labels for electronic ID
- Speaker membranes for mobile telephony
- Connectors/sensors
- Solar cells in cooperation with RISØ

Keyboards:

- Foil - with/without lighting
- Silicone
- Metal - vandal-proof
- Total solutions

SKILLS

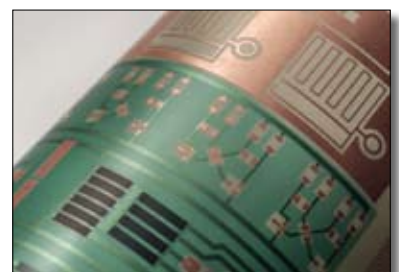

- Europe's largest design and consultancy team for keyboard solutions
- State of the art process technology
- Dedicated teams with global orientation
- Flexible production in Denmark, Poland and China reduces time-to-market

TECHNOLOGIES

- High volume - roll to roll
- Silk screen printing
- Single and double-sided printing
- SMD mounting
- Precision stamping
- Stamping/etching

FACTS

Electronics is one of Europe's leading manufacturers of high-tech components. 7,500 m² of modern architecture form the framework of a rational and cost-effective quality production.

mekoprint

mekoprint

For more than half a century, Mekoprint has maintained the same objective as our customers: Optimum quality in every solution!

It is precisely innovative cooperation with our customers that has always been in the forefront of our thinking. And that's how things will continue!

CONSISTENT QUALITY

Mekoprint's customers pose high requirements, not merely as regards the finished products, but especially reliability of supply, service and flexibility in the cooperation.

Quality, flexibility and efficiency at all stages of the cooperation are therefore a requirement for Mekoprint - internally and externally.

Mekoprint's quality control constantly meets the highest international requirements and standards. The company is certified in compliance with ISO 9001:2000, ISO 14001:2005 and OHSAS 18001:2004.

PARTNER-BASED INNOVATION

Mekoprint develops and produces customer-specific solutions of the highest quality - for Danish and international customers in all industries, involving individual components as well as partial and total solutions.

Partner-based innovation is quite simply about rational product development and ongoing development of the cooperation concept as a whole. The result is increased productivity and competitiveness - for both parties.

The capacity to cooperate on development assignments has become Mekoprint's trademark. This is why more and more customers opt for Mekoprint's experience and specialised know-how in the field of processes and product technology.

TWO WINNERS

The combination of knowledge sharing and exchange of experience can only be optimised in a close cooperation. The unique solutions created by the customer and Mekoprint are based on a common objective and ideal utilisation of both partners' strengths.

MEKOPRINT HAS THE SKILLS

Mekoprint has precisely what is needed to deliver quality in all the company's business areas: skilled, highly specialised staff and the most advanced technology.

Esben Kold, Managing Director

ONE FOR ALL - AND ALL FOR ONE

Mekoprint's four divisions are all among Europe's leading companies within their business areas - with unique, individual key technologies.

As separate units and not least as a whole they command a supreme capacity in the field of optimum, customer-specific solutions.
